

Project Profile

New Administration Building

Year:
2016

Client:
Village of Newburgh Heights

Location:
Newburgh Heights, Ohio

Project Scope:

The new construction of an administrative building with a public meeting room, council chambers, Police Department including a Sally Port, holding cells, interview facilities, officer work space and break room with administrative staff offices including communications networks, all mechanical and facility commissioning.

Project Services:

QCI provided full time on-site construction inspection of the Design Builders work. The inspector documented the work in daily construction activity reports, tracked labor materials and equipment, reviewed and approved pay applications, reviewed and made recommendations on Change Order Requests, quickly brought any work that was not in conformance to the contract documents to the attention of the Village and acted as a liaison between the City and the Design Builder resolving conflicts and answering RFIs.

Cost:
\$ 3 M
