

Project Profile

Great Miami River Recreation Trail

Year:
1997-2000

Client:
City of Delaware
Engineering Dept.

Location:
Delaware, Ohio

Project Scope:

QCI provided construction engineering, contract administration and on-site inspection services for the extension of the multi-phased Great Miami Recreation Trail in Montgomery County. Project elements included the installation of approximately 5.2 miles of 10 ft. wide asphalt recreation trail, two concrete culverts measuring 10 X 4 ft. and 6 X 2 ft., retaining walls, chain link fence, guardrail, signage, pavement markings, landscaping and erosion control measures.

This federally funded Local Public Agency (LPA) project involved cooperation and coordination between numerous federal, state and local government agencies as well as utilities and private property owners.

Project Services:

- Provided Construction Project Engineering, Contract Administration and Inspection Services.
- Performed general project oversight for contract compliance.
- Coordinate all required materials testing.
- Reviewed and processed contractors request for payments.
- Review and made recommendations to change orders.
- Coordinated design changes with contractor, engineer and owner.
- Provided means and methods to aid in resolving conflicts and disputes.
- Utilized Build A Form® Engineer Report System for documenting the project.

Cost:
\$ 2.8 M
